Yes they should update the application consistent with past comments. We need to have discretion to make additional comments, if necessary, on the revised application.

Thanks David.

So then we can proceed with finalizing the application on all sections other than those addressed in the last set of comment responses?

Becky

Hi Rebecca,

Our contractor is still going through the last submittal and will not be in a position to discuss it on the call Thursday. Our preference is to keep the contractor focused on reviewing that submittal to determine if there are additional questions. We expect that our contractor will have completed the review and will be able to participate on the next biweekly call of April 27.

Thanks, David

Nancy;

The purpose of this meeting is for our technical team to address any outstanding concerns the EPA might have on the last round of comment responses provided. If Jim has nothing he needs further explained and no additional information that he requires, then we can discuss finalizing the UIC application and moving on to drafting the permit.

Becky

Hi Rebecca,

Please provide an agenda for Thursday's (4/13) meeting so we can be prepared to discuss items.
I also want to let you know that our contractor is not available for the conference call.

Thanks, Nancy
